

## Saving trees and managing the traffic

Exor Corporation has handled 3,333,333 TMA (Traffic Management Act) notices since 1st April 2008. This significant milestone, achieved at the end of last year with a transaction between Virgin Media and Northamptonshire, on Exor's TMA Managed Service, is expected to have saved the equivalent in 37,037 trees over the past 18 months - the paper alone would stack to over 300 metres high.
